

# Prefute

The voice of the people

# What is prefute

- ▶ A user-friendly interactive communications website, prefute allows you to share your opinions openly and safely with the world.
- ▶ Our aim is to help the common man be able to express his feelings freely.
- ▶ We provide an interactive experience and let users make announcements, predictions confessions and much more on a public as well as private level
- ▶ The idea is to be able to reach out to everyone trying to make a difference in the world and help them get their points across

# How does it work

- ▶ Simply put, you can type in the date you would like to release your communiqué whether professional or otherwise and type in what you would like to release.
- ▶ Our software provides you with a way to organize your work, your everyday life and lets you tell your story without the fear of judgment.
- ▶ As a user, you login and go to the home page, view the newest trending topics and ideas and make prefutes on those which interest you

# Application

- ▶ Prefute as a word means to finish an argument before it starts. The way news is reported in india, we encourage companies to put their faith in our website and issue statements coming firsthand from them on our website to reach the general public and not from news channels which may or may not be trust-able.
- ▶ For a common man, putting out their opinions is very important. We provide a broad audience a way to express what they are feeling and what is new and happening in their lives.
- ▶ We also offer a way to have an interactive fun experience by allowing users to place bets on their predictions.

# What's next for prefute

- ▶ We plan to pitch this not as a website for a competition but a business model for the future.
- ▶ This communications platform gives an opportunity to those who have never gotten one like this before.
- ▶ We intend to get other bigger businesses to invest in ours and take our platform forward. Our key earning is through reaching more and more people and getting advertisements for our website.
- ▶ We believe in giving everyone a chance to go ahead and get their points across to the world

Thank you
